Annual index—

Volume 60

List of issues in Volume 60, January 1982 to December 1982

No. 1	January	Pages 1- 24
" 2	February	25- 48
" 3	March	49- 77
" 4	April	78-104
" 5	May/June	105-132
" 6	July/August	133-168
" 7	September	169-204
" 8	October	205-236
" 9	November	237-264
"10	December	265-300

A

AC POWER DISTURBANCES, July/Aug., 148-152

A faster way to test Josephson junctions, Oct., 234

AIS/Net 1 service first offering of new AT&T subsidiary, July/Aug., 135-136

ALARM SYSTEM, News from Bell Labs, Feb., A

All-electronic local switching: We're more than halfway there, Ralph Dobriner, May/June, 113-115

All-in-one cabinet reduces cost, News from Bell Labs, April, C

A look at the quality of AC power serving the Bell System, Paul D. Speranza, July/Aug., 148-152

AMERICAN BELL INC., July/Aug., 135; Dec., 266-267

A micro building block for the digital network, J. R. Boddie and R. N. Kershaw, May/June, 108-112

A 'model' way to plan the transatlantic network, G. A. Kochman, R. S. Libenschek, and C. J. McCallum, Jr., July/Aug., 143-147

An, Chungming, *Helping the Stored Program Controlled Network respond quickly,* May/June, 120-122

ANALYSIS OF RATES AND REVENUES FOR OUTWARD WATS (ARROW), Sept., 171

An EPIC journey toward the Information Age, Richard N. Klapman, Robert M. Lauver, and Kenneth E. Welton, Nov., 140-245

A new 'health' check for the digital network, Daniel McWhorter and Eve L. Varma, Feb., 37-39

A new information retrieval system: Got a question? Just touch the screen!, George W. Smith, Jr., Oct., 206-213

An interview with John S. Mayo: Information Age technology will 'revolutionize' the local exchange, Ralph Dobriner, Sept., 173-176

An interview with Arno Penzias: Research in the face of change, Lenora M. Vesio, Oct., 214-218

An interview with Ian M. Ross: New technologies for the exchange, A. B. Myers, April, 83-87

APPLICATIONS PROCESSOR, Nov., 256-257

ARIEL (AUTOMATIC RETRIEVAL OF INFORMATION ELECTRONICALLY), Oct., 207-213

Arnold, George W., *BX.25 standard: A modern protocol for the Operations Systems Network,* Nov., 246-250

ARROW aimed at rate restructuring, Sept., 171

Ashkenazi, Leslie E., *Silencing echoes on satellite circuits,* Jan., 2-6

Atlantic Ocean is a lightwave laboratory for Bell Labs undersea systems engineers, Dec., 267

AUTOMATED CALLING CARD SERVICE, May/June, 116-119

AUTOMATED REPAIR SERVICE BUREAU, Sept., 189

AUTOMATIC DATA TEST SYSTEM, Dec., 273-277

B

Baden, John L., *Lightwave systems: They're getting easier to install,* Mar., 50-54

Bailey, Charles C., *Digital radio hops over intercity routes,* July/Aug., 137-140

Ballantyne, Peter J., *Small chip blocks large voltages,* April, 91-94

BANCS (BELL ADMINISTRATIVE NETWORK COMMUNICATIONS SYSTEM), Sept., 192-193

Bell Labs employees to be transferred to American Bell, Dec., 266-267

Bell Labs establishes two new departments for robotics research, Nov., 239

BELL ADMINISTRATIVE NETWORK COMMUNICATIONS SYSTEM (BANCS), Sept., 192-193

BELLMAC™-32A, *New microprocessor: Information Age milestone,* News from Bell Labs, Mar., A

Bell System's new 3B20 Simplex is fast, versatile microcomputer, Sept., 170

Bell System's second No. 5 ESS placed in service by Ohio Bell, Nov., 238

Bergh, Arpad A., *Lightwave communications—The growing role of LEDs,* Jan., 7-9

Annual index—

AUTOMATED CALLING CARD SERVICE, May/June, 116-119

AUTOMATED REPAIR SERVICE BUREAU, Sept., 189

AUTOMATIC DATA TEST SYSTEM, Dec., 273-277

B

Baden, John L., *Lightwave systems: They're getting easier to install,* Mar., 50-54

Bailey, Charles C., *Digital radio hops over intercity routes,* July/Aug., 137-140

Ballantyne, Peter J., *Small chip blocks large voltages,* April, 91-94

BANCS (BELL ADMINISTRATIVE NETWORK COMMUNICATIONS SYSTEM), Sept., 192-193

Bell Labs employees to be transferred to American Bell, Dec., 266-267

Bell Labs establishes two new departments for robotics research, Nov., 239

BELL ADMINISTRATIVE NETWORK COMMUNICATIONS SYSTEM (BANCS), Sept., 192-193

BELLMAC™-32A, *New microprocessor: Information Age milestone,* News from Bell Labs, Mar., A

Bell System's new 3B20 Simplex is fast, versatile microcomputer, Sept., 170

Bell System's second No. 5 ESS placed in service by Ohio Bell, Nov., 238

Bergh, Arpad A., *Lightwave communications—The growing role of LEDs,* Jan., 7-9

Berthold, Joseph E., *Small chip blocks large voltages*, April, 91-94
BH-2 WIRE COVERING, News from Bell Labs, Feb., C
Boddie, J. R., *A micro building block for the digital network*, May/June, 108-112
Buchsbaum, Solomon J., *R & D in U.S. Industry—What's right, what's wrong?*, Oct., 227-228
BUILDING OPERATIONS CONTROL CENTERS, April, 95-99
BX.25 PROTOCOL, Sept., 193
BX.25 standard: A modern protocol for the Operations Systems Network, George W. Arnold and Thomas J. Herr, Nov., 246-250

C

Calling Card: Don't tell it, dial it, Allison B. Mearns, David J. Miller, and Cyrenus M. Rubald, May/June, 116-119
CALLING CARD SERVICE, News from Bell Labs, Feb., A
Cannon, Thomas C., Jr., *Lightwave systems: They're getting easier to install*, Mar., 50-54
CAPACITY SENSITIVE ROUTING, Oct., 232
CAROT (CENTRALIZED AUTOMATIC REPORTING ON TRUNKS), Sept., 189, 192-193
CARRIER TRANSMISSION MEASURING SYSTEM (CTMS), Sept., 189, 192
CATLAS (CENTRALIZED AUTOMATIC TROUBLE LOCATING AND ANALYSIS SYSTEM), News from Bell Labs, April, A
CELLULAR CONCEPT, Jan., 42
CELLULAR TEST BED, Jan., 40-44
CENTRALIZED AUTOMATIC REPORTING ON TRUNKS (CAROT), Sept., 189, 192-193
Chai, David T., *Getting a line on energy use*, April, 78-82
Chip receives dial pulse and TOUCH-TONE® signals, News from Bell Labs, Mar., A
CIRCUIT MAINTENANCE SYSTEM-3A (CMS-3A), Sept., 190, 192-193
CIRCUIT PROVISIONING CENTER, Sept., 190
Clustering and in-house repair: Keys to better 'mini' performance, Anthony L. Dudick, Dec., 269-272
CMS-3A (CIRCUIT MAINTENANCE SYSTEM-3A), Sept., 190, 192-193
Colombia gets international 'dimension', News from Bell Labs, April, C
COMMUNITY SERVICE CABINET, News from Bell Labs, April, C
COMPUTER AIDS FOR THE LOCAL EXCHANGE, Sept., 185-193
COMPUTER-BASED OUTSIDE PLANT MONITORING SYSTEM, PREDICTOR, May/June, 107
Computer graphics system made more 'friendly', Sept., 171
COMPUTER SYSTEM FOR MAINFRAME OPERATIONS (COSMOS), Sept., 186, 188-189, 192
CONTROL CENTERS FOR BUILDING OPERATIONS, April, 95-99
Copeland, John A., *Lightwave communications—The growing role of LEDs*, Jan., 7-9
COSMOS (COMPUTER SYSTEM FOR MAINFRAME OPERATIONS), Sept., 186, 188-189, 192
CTMS (CARRIER TRANSMISSION MEASURING SYSTEM), Sept., 189, 192
CURRENT-TO-PEG COUNT CONVERTER, News from Bell Labs, Mar., A
Curtis, Thomas H., *Silencing echoes on satellite circuits*, Jan., 2-6

D

D'Ambra, Salvatore J., *Silencing echoes on satellite circuits*, Jan., 2-6
DATA BASE ADMINISTRATION SYSTEM (DBAS), News from Bell Labs, Feb., A
DATA BASE ADMINISTRATION SYSTEM, May/June, 120-122
DBAS (DATA BASE ADMINISTRATION SYSTEM), News from Bell Labs, Feb., A; May/June, 120-122
DESIGNER'S WORKBENCH, News from Bell Labs, Mar., C
DESIGNING DIGITAL LOOP CARRIER SYSTEMS, Nov., 239
DETAILED CONTINUING PROPERTY RECORD, News from Bell Labs, Jan., A
DIGITAL ALARM SYSTEM, News from Bell Labs, Feb., A
DIGITAL FACILITY INTERFACE, Feb., 37-39
Digital radio hops over intercity routes, Charles C. Bailey, July/Aug., 137-140
DIGITAL SIGNAL PROCESSOR, May/June, 108-112
Dimension® PBX: Advances for today, transitions to tomorrow, R. Shastri Divakaruni, Charles J. Fette, Douglas A. Spencer, Bruce R. Savage, and G. Daniel Zally, Nov., 254-259
Divakaruni, R. Shastri, *Dimension® PBX: Advances for today, transitions to tomorrow*, Nov., 254-259
Dobriner, Ralph, *All-electronic local switching: We're more than halfway there*, May/June, 113-115
Dobriner, Ralph, *Information Age technology will 'revolutionize' the local exchange*, Sept., 173-176
Dobriner, Ralph, *Telstar, twenty years ago: 'They're receiving us in Europe!'*, July/Aug., 154-157
DR 6-30 AND DR 11-40 DIGITAL RADIO SYSTEMS, July/Aug., 137-140
Dudick, Anthony L., *Clustering and in-house repair: Keys to better 'mini' performance*, Dec., 269-272

E

Early Warning System Protects Outside Plant, May/June, 107
ECHO CANCELER, Jan., 2-6
EGYPT, No. 1A ESS, May/June, 106-107
80-TYPE CABINET, News from Bell Labs, April, C
ELECTRONIC COIN PUBLIC TELEPHONE, News from Bell Labs, Mar., B
ELECTRONIC LOCAL SWITCHING, May/June, 113-115
Electrostatically speaking: How not to 'zap' a circuit, Burton A. Unger, May/June, 123-127
Emerson, Thomas J., *Teaching the techniques that build quality software*, Mar., 64-69
ENERGY MANAGEMENT SYSTEM, April, 78-82
EPCOT CENTER (EXPERIMENTAL PROTOTYPE CITY OF TOMORROW), Oct., 206-213
EPIC journey toward the Information Age, Richard N. Klapman, Robert M. Lauver, and Kenneth E. Welton, Nov., 240-245

F

FACILITY ASSIGNMENT AND CONTROL SYSTEM (FACS), July/Aug., 158-162; Sept., 186, 188-189, 191-192
FACS (FACILITY ASSIGNMENT AND CONTROL SYSTEM), Sept., 186, 188-189, 191-192
FACILITY CAPACITY PLANNING SYSTEM, Oct., 229-233
FCAP (FACILITY CAPACITY PLANNING SYSTEM), Oct., 229-233
Fellowship program to finance Info Age doctoral studies, Dec., 268
Fette, Charles J., *Dimension® PBX: Advances for today, transitions to tomorrow*, Nov., 254-259
Field reps, Bell Labs, 1982, News from Bell Labs, Jan., B
Fischell, David R., *The QUORUM™ Teleconferencing System: Going the distance for business customers*, Dec., 278-282
Fleckenstein, William O., *Operations support systems: computer aids for the local exchange*, Sept., 185-193
FLEXGEL™ COMPOUND, Jan., 13-15
Four years of local exchange technology coverage, Sept., 197-201
'Friendly' system speeds circuit design, News from Bell Labs, Mar., C

G

Gartzke, Wayne F., *Managing Bell System building operations*, April, 95-99
GATED DIODE SWITCH, April, 91-94
GENERIC 2DB3 DATA BASE ADMINISTRATION SYSTEM, News from Bell Labs, Feb., A
GETSET TELETERMINAL, Nov., 240-245
Getting a line on energy use, David T. Chai and Thomas B. Hoekstra, April, 78-82
Getting new-product data to Operating Companies—fast, News from Bell Labs, Feb., D
Giummo, Ronald A., *Tomorrow's long distance network: Planning to handle the load*, Oct., 229-233
Gotthardt, Manfred R., *Lightwave systems: They're getting easier to install*, Mar., 50-54
GROUNDING VIDEOTAPES, News from Bell Labs, Jan., D

H

Hardwick, Nathan E., III, *Lightwave systems: They're getting easier to install*, Mar., 50-54
Hartman, Adrian R., *Small chip blocks large voltages*, April, 91-94
Healy, John D., *How's service? Ask the customer*, Feb., 31-34
Helping the Stored Program Controlled Network respond quickly, Chungming An, Brian Kowalski, Chung C. Wang, and Charles E. W. Ward, May/June, 120-122
Herr, Thomas J., *BX.25 standard: A modern protocol for the Operations Systems Network*, Nov., 246-250
Hester, S. Dean, *Taking the pulse of the network*, Mar., 70-74
Hoekstra, Thomas B., *Getting a line on energy use*, April, 78-82
Holt, Vernon E., *Saving energy the wide band way*, Oct., 220-223
How's service? Ask the customer, John D. Healy, James M. Kelly, David G. Leeper, M. Gail Linnell, and James A. Maher, Feb., 31-34
H.R. 5158, STATEMENT ON, I. M. Ross, April, 86-87

I

Improved planning tool eases switching system replacement, News from Bell Labs, Jan., A
INTERACTIVE PLANNING WORK STATION, Oct., 230
Inventory control system for plug-ins now in general use, News from Bell Labs, Jan., A

J

JOSEPHSON JUNCTIONS, Oct., 234
JOSEPHSON JUNCTIONS, *Superconductor chip brings 'supercomputer' nearer reality*, July/Aug., 134

K

Keeping the 1A Processor up to date, Joseph H. Leppert, Alan H. Miller, and James A. Painter, Jan., 16-20
Keeping water out, letting messages flow, David M. Mitchell and Raffaele Sabia, Jan., 13-15
Kelly, James M., *How's service? Ask the customer*, Feb., 31-34
Kelly, Kenneth K., II, *Tests say 'GO!' for mobile phone service*, Feb., 40-44
Kershaw, Robert N., *A micro building block for the digital network*, May/June, 108-112
Klapman, Richard N., *An EPIC journey toward the Information Age*, Nov., 240-245
Kochman, Gary A., *A 'model' way to plan the transatlantic network*, July/Aug., 143-147
Kowalski, Brian, *Helping the Stored Program Controlled Network respond quickly*, May/June, 120-122

L

Lab tests will help put lightwave cable on ocean floor, April, 88
Larson, Glenn E., *One-person testing for data sets and terminals*, Dec., 273-277
LASERS, *Lightwave communications—The growing role of LEDs*, Jan., 7-9
Lauver, Robert M., *An EPIC journey toward the Information Age*, Nov., 240-245
LCAMOS (LOOP CABLE ADMINISTRATION AND MAINTENANCE OPERATIONS SYSTEM), Sept., 189, 192
LEDs, *Lightwave communications—The growing role of LEDs*, Jan., 7-9
Leeper, David G., *How's service? Ask the customer*, Feb., 31-34
Leonard, Donald J., *Local switching: on the leading edge of technology*, Sept., 181-184
Leppert, Joseph H., *Keeping the 1A Processor up to date*, Jan., 16-20
Libenschek, Rudolph S., *A 'model' way to plan the transatlantic network*, July/Aug., 143-147
LIGHTGUIDE CABLE INTERCONNECTION EQUIPMENT, Mar., 50-54

Lightwave communications—The growing role of LEDs, Arpad A. Bergh, John A. Copeland, and Jack H. Wernick, Jan., 7-9
Lightwave systems: They're getting easier to install, John L. Baden, Thomas C. Cannon, Manfred R. Gotthardt, and Nathan E. Hardwick, Mar., 50-54
Linnell, M. Gail, *How's service? Ask the customer*, Feb., 31-34
LMOS (LOOP MAINTENANCE OPERATIONS SYSTEM), Sept., 188-189, 192
LOCAL EXCHANGE, Sept., 185-193
Local switching: on the leading edge of technology, Donald J. Leonard, Sept., 181-184
LOCAL SWITCHING REPLACEMENT PLANNING SYSTEM (LSRP), News from Bell Labs, Jan., A
Looking for trouble—and finding it, News from Bell Labs, April, A
LOOP CABLE ADMINISTRATION AND MAINTENANCE OPERATIONS SYSTEM (LCAMOS), Sept., 189, 192
LOOP FACILITY ASSIGNMENT AND CONTROL SYSTEM, Sept., 188
LOOP MAINTENANCE OPERATIONS SYSTEM (LMOS), Sept., 188-189, 192
LOOP-SIGNALING REPEATERS, News from Bell Labs, Mar., C
LSRP (LOCAL SWITCHING REPLACEMENT PLANNING SYSTEM), News from Bell Labs, Jan., A
Ludscheidt, Ingrid, *Testing a software system: New Model BOC adds the 'people' ingredient*, July/Aug., 158-162

M

Maher, James A., *How's service? Ask the customer*, Feb., 31-34
Managing Bell System building operations, Wayne F. Gartzke and Robert M. Welch, April, 95-99
Mayo, John S., *Interview: Information Age technology will 'revolutionize' the local exchange*, Sept., 173-176
Mayo, John S., *Technology requirements of the Information Age*, Mar., 55-59
Mayo, John S., *The solid-state revolution: Global force for the Information Age*, July/Aug., 141-142
McCallum, Charles J., Jr., *A 'model' way to plan the transatlantic network*, July/Aug., 143-147
MCCULLOH ALARM SYSTEM, News from Bell Labs, Feb., A
McWhorter, Daniel M., *A new 'health' check for the digital network*, Feb., 37-39
Mearns, Allison B., *Calling Card: Don't tell it—dial it*, May/June, 116-119
MEASURED IMPAIRMENT SURVEY, Feb., 31-34
MECHANIZED DESIGN INFORMATION SYSTEM, News from Bell Labs, Feb., D
MECHANIZED LOOP TESTING (MLT), Sept., 188-189, 192
Memory chip stores over a quarter-million bits, News from Bell Labs, Feb., A
Microelectronics and software: Shaping the Information Society, Ian M. Ross, Nov., 251-253
MICROPROCESSOR, 32-BIT, News from Bell Labs, Mar., A
Microprocessors, VLSI circuits, sophisticated software team up to provide advanced PBX features, May/June, 106
Miller, Alan H., *Keeping the 1A Processor up to date*, Jan., 16-20
Miller, David J., *Calling Card: Don't tell it—dial it*, May/June, 116-119
MINICOMPUTER, 3B20 SIMPLEX, Sept., 170
Mitchell, David M., *Keeping water out, letting messages flow*, Jan., 13-15
MLT (MECHANIZED LOOP TESTING), Sept., 188-189, 192
MOBILE COMMUNICATIONS LABORATORY, Jan., 40-44
MODEL BOC, July/Aug., 158-162
MODULATION, July/Aug., 140
Myers, A. B., *An Interview with Ian M. Ross: New technologies for the exchange*, April, 83-87
MX3 Lightwave Terminating Frame developed for large lightwave systems, News from Bell Labs, April, B

N

NETWORK PERFORMANCE, Mar., 70-74
NETWORK SERVICE CENTER SYSTEM (NSCS), Sept., 187, 192
New Bell Labs film, videotapes available, July/Aug., 136
New equations aid design of undersea cable, News from Bell Labs, April, A
New generic improves testing of special service circuits, News from Bell Labs, Jan., A
New loop-signaling repeaters cost less, save power, News from Bell Labs, Mar., C
New microphone makes teleconferencing easier and better, April, 88-89
New microprocessor: Information Age milestone, News from Bell Labs, Mar., A
New procedure will allow 'growth' of single-module No. 5 ESS, Dec., 266
New technologies for the exchange, A. B. Myers, April, 83-87
New wire covering cuts space and craft effort, News from Bell Labs, Feb., C
No. 1A ESS goes Egyptian, May/June, 106-107
No. 2 SERVICE EVALUATION SYSTEM, Mar., 70-74; Sept., 187, 192
No. 5 ESS cutover: a milestone in digital switching, News from Bell Labs, April, A
No. 5 ESS, SECOND PLACED IN SERVICE, Nov., 238
No. 5 ESS STRUCTURE, Sept., 184
No. 10A REMOTE SWITCHING SYSTEM, Sept., 183
NSCS (NETWORK SERVICE CENTER SYSTEM), Sept., 187, 192

O

Ogden, George D., *Testing a software system: New Model BOC adds the 'people' ingredient*, July/Aug., 158-162
One-person testing for data sets and terminals, Glenn E. Larson, Charles J. Provenzano, and Serenella M. Stahl, Dec., 273-277
One-person testing provided for the digital special services network, Dec., 268

OUTSIDE PLANT HOUSING, News from Bell Labs, April, C
OPEOS (OUTSIDE PLANT PLANNING, ENGINEERING AND CONSTRUCTION OPERATIONS SYSTEM), Sept., 189, 192
Operations support systems: computer aids for the local exchange, William O. Fleckenstein, Sept., 185-193
OPERATIONS SYSTEMS NETWORK, Sept., 190; Nov., 246-250
OUTSIDE PLANT MONITORING SYSTEM, PREDICTOR, May/June, 107
OUTSIDE PLANT PLANNING, ENGINEERING AND CONSTRUCTION OPERATIONS SYSTEM (OPEOS), Sept., 189, 192

P

Painter, James A., *Keeping the 1A Processor up to date*, Jan., 16-20
PAIR GAIN PLANNING, July/Aug., 136
Penzias, Arno, *Interview—Research in the face of change*, Lenora M. Vesio, Oct., 214-218
PICS (PLUG-IN INVENTORY CONTROL SYSTEM), Sept., 190, 192-193
Pillmeier, Rudolph J., *Tests say 'GO!' for mobile phone service*, Feb., 40-44
Planning proceeds on world's longest digital coax system, July/Aug., 135
PLANT LOCATION RECORDS MANAGEMENT SYSTEM, Sept., 171
PLUG-IN INVENTORY CONTROL SYSTEM WITH DETAILED CONTINUING PROPERTY RECORD, News from Bell Labs, Jan., A
PLUG-IN INVENTORY CONTROL SYSTEM (PICS), Sept., 190, 192-193
Practices manual prepared for digital loop carrier jobs, Nov., 239
Predicting microwave radio fading, James A. Schiavone and Arvids Vigants, Dec., 284-288
PREDICTOR, COMPUTER-BASED OUTSIDE PLANT MONITORING SYSTEM, May/June, 107
PREMISES INFORMATION SYSTEM, Sept., 188
PROCESSOR, Jan., 16-20
PRODUCTIVITY, Sept., 186
Provenzano, Charles J., *One-person testing for data sets and terminals*, Dec., 273-277
Public telephone troubles reduced electronically, News from Bell Labs, Mar., B

Q

QUORUM™ TELECONFERENCING SYSTEM, April, 88-89
QUORUM™ Teleconferencing System: Going the distance for business customers, David R. Fischell and Christopher Stockbridge, Dec., 278-282

R

Raising the alarm the digital way, News from Bell Labs, Feb., A
RANDOM ACCESS MEMORY, News from Bell Labs, Feb., A
RATE PLANNING, Sept., 171
R & D in U.S. Industry—What's right, what's wrong? Solomon J. Buchsbaum, Oct., 227-228
REMOTE MEMORY ADMINISTRATION SYSTEM (RMAS), Sept., 187, 192
REPEATERS, LOOP SIGNALING, News from Bell Labs, Mar., C
Research in the face of change, An interview with Arno Penzias, Lenora M. Vesio, Oct., 214-218
Riley, Terence J., *Small chip blocks large voltages*, April, 91-94
RMAS (REMOTE MEMORY ADMINISTRATION SYSTEM), Sept., 187, 192
ROBOTICS RESEARCH, Nov., 239
Ross, Ian M., *Interview—New technologies for the exchange*, A. B. Myers, April, 83-87
Ross, Ian M., *Microelectronics and software: Shaping the Information Society*, Nov., 251-253
Ross, Ian M., *Software: Basic to our Business*, Feb., 26-30
Rubald, Cyrenus M., *Calling Card: Don't tell it—dial it*, May/June, 116-119

S

Sabia, Raffaele, *Keeping water out, letting messages flow*, Jan., 13-15
SARTS (SWITCHED ACCESS REMOTE TEST SYSTEM), News from Bell Labs, Jan., A
SARTS (SWITCHED ACCESS REMOTE TEST SYSTEM), Sept., 185-186, 190-193
SATELLITES, July/Aug., 154-157
Savage, Bruce R., *Dimension® PBX: Advances for today, transitions to tomorrow*, Nov., 254-259
Saving energy the wide band way, Vernon E. Holt and John H. Smellie, Oct., 220-223
Schiavone, James H., *Predicting microwave radio fading*, Dec., 284-288
SCCS (SWITCHING CONTROL CENTER SYSTEM), Sept., 186-187, 192
SCOTS (SURVEILLANCE AND CONTROL OF TRANSMISSION SYSTEMS), Sept., 189, 192
SEA PLOW V, Sept., 171-172
Second No. 5 ESS placed in service by Ohio Bell, Nov., 238-239
SERVICE EVALUATION SYSTEM (No. 2 SES), Mar., 70-74; Sept., 187, 192
SERVICE ORDER ANALYSIS AND CONTROL SYSTEM, Sept., 188, 191
Silencing echoes on satellite circuits, Leslie E. Ashkenazi, Thomas H. Curtis, Salvatore J. D'Ambra, and Ronald H. Tegethoff, Jan., 2-6
SLC™-96 SUBSCRIBER LOOP CARRIER SYSTEM, Sept., 177-180
Sled-like device used to lay portions of new TAT-7 cable, Sept., 171-172
Small chip blocks large voltages, Peter J. Ballantyne, Joseph E. Berthold, Adrian R. Hartman, and Terence J. Riley, April, 91-94
Smellie, John H., *Saving energy the wide band way*, Oct., 220-223
Smith, George W., Jr., *A new information retrieval system: Got a question? Just touch the screen*, Oct., 206-213

Software: Basic to our business, Ian .M Ross, Feb., 26-30
SOFTWARE DESIGN, Mar., 68
SOFTWARE ENGINEERING COURSES, Mar., 64-69
SOLID-STATE ELECTRONICS, Mar., 55-59
Solid-state revolution: Global force for the Information Age, John S. Mayo, July/Aug., 141-142
SPECIAL SERVICE CENTER, Sept., 190, 193
Spencer, Douglas A., *Dimension® PBX: Advances for today, transitions to tomorrow,* Nov., 254-259
Speranza, Paul D., *A look at the quality of AC power serving the Bell System,* July/Aug., 148-152
Stahl, Serenella M., *One-person testing for data sets and terminals,* Dec., 273-277
Stockbridge, Christopher, *The QUORUM™ Teleconferencing System: Going the distance for business customers,* Dec., 278-282
Superconductor chip brings 'supercomputer' nearer reality, July/Aug., 134
SURVEILLANCE AND CONTROL OF TRANSMISSION SYSTEMS (SCOTS), Sept., 189, 192
SWITCHED ACCESS REMOTE TEST SYSTEM (SARTS), News from Bell Labs, Jan., A
SWITCHED ACCESS REMOTE TEST SYSTEM (SARTS), Sept., 185-186, 190-193
SWITCHING CONTROL CENTER SYSTEM (SCCS), Sept., 186-187, 192
System provides data for Calling Card Service, News from Bell Labs, Feb., A
System speeds planning for digital subscriber loop carriers, July/Aug., 136

T

Taking the pulse of the network, S. Dean Hester, Mar., 70-74
TASC (TELECOMMUNICATIONS ALARM SURVEILLANCE AND CONTROL), Sept., 189, 192
TAT-7, Sept., 171-172
T-CARRIER ADMINISTRATION SYSTEM (TCAS), Sept., 189, 192
TCAS (T-CARRIER ADMINISTRATION SYSTEM), Sept., 189, 192
Teaching the techniques that build quality software, Thomas J. Emerson, Mar., 64-69
Technology for the loop: a Bell Labs commitment, Irwin Welber, Sept., 177-180
Technology requirements of the Information Age, John S. Mayo, Mar., 55-59
Tegethoff, Ronald H., *Silencing echoes on satellite circuits,* Jan., 2-6
TELECOMMUNICATIONS ALARM SURVEILLANCE CONTROL (TASC), Sept., 189, 192
TELECONFERENCING MICROPHONE, April, 88-89
TELECONFERENCING, Dec., 278-282
Telstar, twenty years ago: 'They're receiving us in Europe!', Ralph Dobriner, July/Aug., 154-157
Terminating frame developed for large lightwave systems, News from Bell Labs, April, B
Testing a software system: New Model BOC adds the 'people' ingredient, Ingrid Ludscheidt and George D. Ogden, July/Aug., 158-162
Tests say 'GO!' for mobile phone service, Kenneth K. Kelly II and Rudolf J. Pillmeier, Feb., 40-44
The QUORUM™ Teleconferencing System: Going the distance for business customers, David R. Fischell and Christopher Stockbridge, Dec., 278-282
3B20 SIMPLEX, Sept., 170
TIRKS (TRUNKS INTEGRATED RECORDS KEEPING SYSTEM), Sept., 186, 190-193
TNDS (TRAFFIC [TOTAL] NETWORK DATA SYSTEM), Sept., 187, 192
Tomorrow's long distance network: Planning to handle the load, Ronald A. Giummo, Oct., 229-233
Touch-A-Matic® telephones go international, News from Bell Labs, Feb., B
TOUCH-SENSING TERMINAL, Oct., 209
TRAFFIC [TOTAL] NETWORK DATA SYSTEM (TNDS), Sept., 187, 192
TRANSATLANTIC NETWORK PLANNING, July/Aug., 143-147
TRUNKS INTEGRATED RECORDS KEEPING SYSTEM (TIRKS), Sept., 186, 190-193

U

Unger, Burton A., *Electrostatically speaking: How not to zap a circuit,* May/June, 123-127
Unit monitors central office current use, News from Bell Labs, Mar., A

V

Varma, Eve L., *A new 'health' check for the digital network,* Feb., 37-39
Vesio, Lenora M., *An interview with Arno Penzias: Research in the face of change,* Oct., 214-218
VIDEOTAPES AVAILABLE, July/Aug., 136
Videotapes rated PG—for proper grounding, News from Bell Labs, Jan., D
Vigants, Arvids, *Predicting microwave radio fading,* Dec., 284-288

W

Wang, Chung C., *Helping the Stored Program Controlled Network respond quickly,* May/June, 120-122
Welber, Irwin, *Technology for the loop: a Bell Labs commitment,* Sept., 177-180
Welch, Robert M., *Managing Bell System building operations,* April, 95-99
Welton, Kenneth E., *An EPIC journey toward the Information Age,* Nov., 240-245
Wernick, Jack H., *Lightwave communications—The growing role of LEDs,* Jan., 7-9
WIDE BAND TEMPERATURE CONTROL, Oct., 220-223
WIRE COVERING, News from Bell Labs, Feb., C
WORLDKEY INFORMATION SERVICE, Oct., 207-213

XYZ

X.25 PROTOCOL, Sept., 193
Zally, G. Daniel, *Dimension® PBX: Advances for today, transitions to tomorrow,* Nov., 254-259
ZERO ENERGY GROWTH, Oct., 222
